## MESA VERDE PARK

*Updates!*

The Pavilion floor was recently resurfaced and new tables were added to create better seating options.

The ponds in Belterra aren't just pretty, they play important roles in the management of drainage and water quality within the Districts. The pond located at the corner of Belterra Dr. and Trinity Hills Dr. has been returned to its originally designed water depth and adjustments have been made to ensure the pond functions as designed. The District is working to get the banks revegetated at no cost to residents.
